SUMMARY

Information Technology undergraduate with strong foundations in Java, SQL, and full-stack development. Solved 200+ LeetCode problems and built hands-on projects using React, FastAPI, MySQL, and MongoDB. Eager to apply problem-solving and software development skills in a Software Engineering or Cloud Engineering role.

EDUCATION

HSC

De Britto Hr.Sec School

Group : Computer Science Grade : 88.5%

06/2023 – 03/2025

Devakottai

B.Tech - Information Technology

Sri Shakthi Institute of Engineering and Technology

CGPA : 7.90

09/2024 – 2028

Coimbatore

SKILLS

Programming Languages

Java,C

Tools & Systems

Git,VS Code, Linux

Databases & Cache

MySQL,MongoDB,Redis,PosgreSQL

Web Technologies

HTML,CSS,Javascript,React.js

Cloud Technology

AWS,Blackblaze

Frameworks & Liabraries

FastAPI,Celery

PROJECTS

Quota Engine Design

Designed and developed a distributed quota management system to enforce API usage limits and resource allocation across multiple services. Integrated **Redis** for fast quota storage and caching, **Celery** for asynchronous background task processing, and **FastAPI** for RESTful APIs. Containerized the application using **Docker** to ensure consistent development and deployment environments.

Cloud File Storage - Secure Cloud-Based File Management

Developed a cloud-based file storage application with secure authentication, file upload/download, and file management features using React, FastAPI, PostgreSQL, Docker, and MinIO (S3-compatible object storage).

INTERESTS

Data Structures & Algorithms

Database Design

Problem Solving

Cloud Computing
